## **Cookie Policy**

The purpose of this Cookies Policy is to inform the user of the website of the precise aspects regarding the installation and use of cookies in it.

### **Introduction**

In order to offer the services and functionalities of this website, we only use technical, own and third-party cookies, as reported in this website policy.

### **What are cookies?**

A cookie is a file that is downloaded to your device when you access certain web pages. Cookies allow a web page, among other things, the proper functioning of the web page and the verification of essential aspects, such as the identity of the user in case of individualized requests.

Cookies can affect the privacy of users, for this reason, we want to offer you the necessary information about the type of cookies used on the Website, so that you have full decision-making capacity in relation to their use and the protection of your Privacy.

In this sense, we inform you that in order to use all the services and functionalities of the website, it is necessary to enable cookies in the Internet browser.

---

### What cookies are used on our Website?

The cookies that are being used on our website are identified below as well as their description, the duration of storage and their ownership:

---

### **How to delete cookies?**

To restrict or block cookies, you must modify the configuration of the browser you use on your terminal, be it a computer, smartphone or tablet.

In general, browsers offer the following configuration options in relation to the installation of cookies:

- That the browser rejects all cookies and, therefore, that no cookie from any web page is installed on your terminal.
- That the browser warn before the installation of the cookie takes place so that it can decide whether or not to accept the installation of the same.
- That the browser only rejects third-party cookies from the websites you visit, but not those used by the website you are browsing.
- The option of browsing in private mode by means of which cookies are installed in the terminal, but are automatically deleted when you finish browsing the website. In the following links you can obtain information about browsing in private mode in the most used Internet browsers:

- Google Chrome: <https://support.google.com/chrome/answer/95464?hl=es>

- Mozilla Firefox:
